

SUSTAINABILITY REGULARS MEET-UP

A discussion Platform for clients who are interested in sustainability

We meet once a quarter in a restaurant to discuss, to inform and to get together.

Each meeting hosts a motivational speech on a special aspect of sustainability of his/her business to start a debate.

*Our opening event in January 2015 was with PROF. FRANK EBINGER, TH Nürnberg, who spoke on “**Sustainable Development in Kyrgyzstan**”*

Events in 2015: *May 7th, July 30th, October 29th*

Testimonials for first event:

Christine Riemer-Mathies, Psychological Consultant

“The evening exceeded my expectations, as the talk about the situation in Kyrgyzstan was a good foundation and laid the basis for further discussion and questions.

In further conversations which took place, I had a stimulating exchange with some very nice and open people.

I look forward to more interesting lectures and meetings and will be happy to attend again.”

Testimonials for first event:

Dr. Norbert Werner, SSF-Verbindungsteile GmbH

- *Nice atmosphere*
- *Good organisation*
- *An unusual (in a good sense) Lecture*

Thx

Edelgard Cawal, Verlag Nürnberger Presse Druckhaus Nürnberg GmbH & CO. KG

“The presentation of Professor Dr. Frank Ebinger on sustainability in Kyrgyzstan was impressive. Professor Ebinger brought to life his experience about the particular difficulties to introduce the topic of environmental protection, and the implementation of sustainable development in this country.”

Daphne Schell, AMG Advanced Metallurgical Group

“I think it’s a very good idea for customers who have very different perspectives, to compare their experiences and needs for sustainability. I enjoyed the evening and exchanged some very stimulating conversation with some pleasant people. I have developed some good contacts here that I hope will and deepen in the future.

Volker, please accept my heartfelt thanks and appreciation for your efforts.”
